

Potassium Phosphite Liquid Fertilizer

Description:

POWER PHOSPHITE is a compound liquid fertilizer with Potassium, phosphite and trace element. Enhance crop disease resistance and nutrient efficiency. Utilizing advanced phosphite technology, it combines benefits of a fertilizer and a fungicide, offering dual-action support for crop health.

Formulation:

0-525-270+TE (Polupar)

0-520-340+TE

0-420-280+TE+AA100

*TE = Trace Elements

*AA = Amino Acid

Typical Data:(0-525-270+TE)

Item	Percentage
Phosphorus (P ₂ O ₅) Content	≥525 g/L
Potassium (K ₂ O) Content	≥270 g/L
Boron (B) + Zinc (Zn) Content	≥2.0 g/L
Density	1.45–1.48
Water Insoluble Matter	≤10 g/L

Why Choose POWER PHOSPHITE ?

- Phosphite (salts) activates the crop's self immune system to boost natural defense.
- Controls diseases Like powdery mildew, blight and root rot.
- Advanced technology prevents oxidation, keep effectiveness..
- Pure formula with no unpleasant smell
- Added Amino Acid to enhances crop stress resistance
- Added Trace Element to supply essential micronutrients for crops

Target Applications:

Crops type

- Cucurbitaceae like cucumber, squash
- Solanaceae like tomato, eggplant
- Fruit Trees like Apples, grapes, citrus,
- Field Crops

Recommended Dilution Rate by Foliar Spray

Dilute 1000 times
Dilute 1000 times
Dilute 800-1000 times
Use 450-900 ml per hectare

Customized Packaging:

Package Type

200 ML Bottle
500 ML Bottle
1L Bottle
5L
10L
20L / 250L / 1000 L

Package Capacity

40 Bottles/Carton
20 Bottles/Carton
12 Bottles/Carton
4 Jerry Cans/Carton
2 Jerry Cans/Carton

MOQ

400 Bottles
300 Bottles
200 Bottles
100 Jerry Cans
100 Jerry Cans

Discussed

Storage:

Store in the original container in a cool, dry place away from direct sunlight, excessive moisture, and heat. Keep container tightly closed after each use.
